The 'Click To Pray eRosary'

The „Click To Pray eRosary“ is an interactive, smart and app-driven wearable device that serves as a tool for learning how to pray the rosary for peace in the world. It can be worn as a bracelet and is activated by making the Sign of the Cross. It is synchronized with a free App of the same name, which allows access to an audio guide, exclusive images and personalized content about the praying of the Rosary.

Organisers say it is within the reach of everyone. Aimed at the peripheral frontiers of the digital world where the young people dwell, the „Click To Pray eRosary“ serves as a technology-based teaching tool to help young people pray the Rosary for peace and to contemplate the Gospel. The project brings together the best of the Church's spiritual tradition and the latest advances of the technological world.

Physically, the device consists of ten consecutive black agate and hematite rosary beads, and a smart Cross which stores all the technological data connected to the app. When activated, the user has the possibility to choose either to pray the standard Rosary, a contemplative Rosary and different kinds of thematic rosaries that will be updated every year. Once the prayer begins, the smart rosary shows the user's progress throughout the different mysteries and keeps track of each Rosary completed.

This smart rosary belongs to the family of "Click To Pray", the official prayer app of the Pope's Worldwide Prayer Network (where Pope Francis has his own personal profile) that connects thousands of people around the globe to pray every day. The eRosary is also intended to accompany him in his daily and monthly intentions in order to build a world with the taste of the Gospel.

GadgeTek Inc. (GTI), a tech company dedicated to innovative lifestyle gadgets with operations spanning five continents around the globe, was responsible for the technological design of the wearable device.

Hearers of the Word

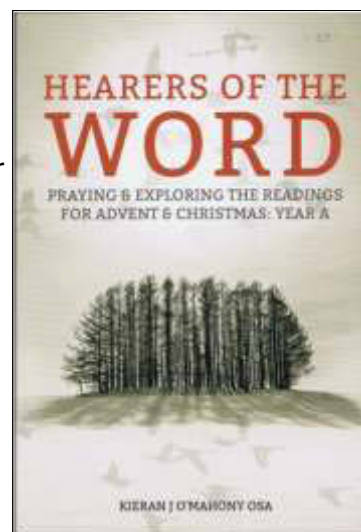

Kieran O'Mahony OSA

The growing hunger for the Word of God is an unexpected development in our time. A new book on the Gospel readings for Advent and Christmas sets out to nourish those who desire something deeper and richer than typically occurs in the usual setting of worship.

In **Hearers of The Word - *Praying and Exploring the Readings for Advent and Christmas: Year A*** Kieran J O'Mahony OSA maps the readings for the liturgical period from Advent to the 2nd Sunday of Year A in terms of their historical and theological significance. With prayers and prayer guidance that reflect a multi-dimensional understanding of the Gospel, the book is an accessible guide to the richness of the Bible.

Hearers of the Word seeks to provide a prayerful encounter with Christ through the Lectionary readings and may be useful to those involved in Lectio Divina, either individually or in a group. Aiming to expand the biblical knowledge and skill of the user, **Hears of the Word** is unique among Gospel commentaries on the market today, looking as it does to combine spirituality and contemporary biblical scholarship.

Kieran J O'Mahony OSA is an Augustinian friar and biblical scholar. He is coordinator of biblical studies with the Dublin Archdiocese and is well-known for his very popular *Weekly Notes* – an email resource for each week's readings throughout the year.

Hearers of The Word - *Praying and Exploring the Readings for Advent and Christmas: Year A* by Kieran J O'Mahony OSA is published in Ireland and the UK by Messenger Publications. Priced at €19.95 and available in the Abbey Bookshop.
